Maloney's Wedding

The theatre patrons of Wetaskiwin have a comedy treat in store for them in "Maloney's Wedding," which is to appear at the opera house on Friday and Saturday evenings of the present week. Farce comedy is now and always will be popular with all classes of theatre goers, especially so when it is presented in a clean and wholesome manner, free from vulgarity.

One of the salient features of the coming production is that the dialogue and action of the play is of the highest order. The comedians do not depend upon horseplay and nonsense to cause the laughter, as each individual member of the organization is an experienced performer. The musical numbers are up to date, and no doubt some of them will be whistled for weeks afterwards by the festive gentry.

Allen Doone is handling the role of Dan Maloney. As a ninth provoker Doone stands second to none, being possessed of a high tenor voice, combined natural wit and humor, he is a whole show in himself. Reserved seats are now on sale at Mayberry's.

Police Court

Chas. Grandland was brought before the J. P. S. Tuesday morning and sent up for trial on the charge of stealing liquor from a C. P. R. car. A young man was also fined \$10 for drinking liquor knowing it was stolen.

John Roud was arraigned before J. Y. Byers, J. P., on Wednesday, and sent up to the Fort for three months for stealing a watch and selling it.

WAR NEWS

WHAT THE RUSSIANS AND JAPANESE HAVE BEEN DOING THE PAST WEEK.

Fusan, Corea, June 10th.—The Jap-
anese army has recently been engaged
in most important operations.
For two days past four columns have
been reconnoitering the roads towards
Liao Yang, Sinitica and Siu Yen,
and have occupied towns on those
roads, dislodging the Russians num-
bering several hundred from each
after sharp fighting. The Japanese
casualties were 65 men killed or
wounded.

Rome, June 10th.—A cable service
despatch from Chefoo says General
Stoesel, commanding at Port Arthur,
has issued a last appeal to the gar-
rison, exhorting them to show the
world how Russians can defend the
honor of their Car and country.

Liao Yang, June 10th.—The Rus-
sian force at Sinitica was com-
manded by General Erioff who engaged
the Japanese advance at Nineson on
June 7th. The Russians infantry
advanced steadily, pushing the Japane-
se from their positions, but their
attack gradually developed strength
and the Russians, finding themselves
in the presence of overwhelming forces,
retired in good order. Their losses
were three officers and about one
hundred men killed or wounded.
Russians observers think the Japane-
se lost more. The fighting con-
tinued until 3 p.m. The Japanese are
reported as attempting a debarkation
north of Sen Yu Chen, from trans-
ports protected by warships.

Hai Cheng, Manchuria, June 13.
—A fleeing movement of Japane-
se around the Russian left from
Feng Wang Cheng on June 9th
was repulsed with the loss of two
whole battalions. A large Japane-
se force moved out in the morn-
ing along the Feng Wang Cheng
and Hai Cheng road. The Russians
had a force strongly posted in
a ravine three miles southeast of
Hai Cheng. The Japanese were
prevented by two battalions who
walked into an ambush. They
received a murderous rifle and arti-
llery fire at close range and were
wiped out, only one or two escap-
ing.

The militia Japanese force which
was greatly superior to the Russian
force tried to outflank the Russians
who draw off without losing a man.
The Japanese, closing, found the
ravine vacant, save for their dead.

St. Petersburg, June 13.—A ru-
mor which cannot be confirmed is
circulating in St. Petersburg, that
a great naval battle has been
fought off Port Arthur in which
two Russian and four Japanese
battleships were sunk.

The despatch from Chefoo states
that Chinese arriving there from
Port Arthur say a battle has been
fought within seven miles of the
inner works there Wednesday. The
Japanese fleet lying off the coast
could of Liao Yang peninsula sup-
ported the army in the encounter.

St. Petersburg, June 14.—The fol-
lowing is the official statement of
the Russian losses in the war to
date. Navy.—41 officers and 320
men killed 13 officers and 220 men
wounded. Army.—36 officers and
930 men killed; 103 officers and
2,080 men wounded; 20 officers and
600 men captured.

Tokio, June 14.—A successful
bombardment by Japanese vessels
of extensive earthworks thrown up
by Russian in the neighborhood of
'Tien Kow was reported to-night.
Three thousand Russians were en-
trenched from points along the line
of temporary defence towards the
city of Yinkow. The Japanese
fire became so furious that the Rus-
sians abandoned the port. The
fire was directed first towards the
Kaiping end of the line, but as the
Russians retreated the Japanese
line of attack was extended so that
the Russian troops were pursued
for miles along the route by the
shells from the Japanese ships.
A heavy return was made to the
Jap fire by the Russians, who had
twenty guns, but their batteries
were silenced one by one, and in
many instances the Russians re-
sponded so rapidly that they were
unable to take their cannon with
them.
The Japanese squadron engaged
in the bombardment was manoeuv-
red rapidly and the last of the at-
tackers were not in Yien Kow when
the Japs shelled that city.

An effort was made by the Rus-
sians to rally, and a brief reply to
the bombardment was made from
the fort itself, but the Japanese
fire increased in severity and in a
few hours the Russians were in
full retreat.

Teachers Institute

Continued from page 2

the efficient and patient assistance so voluntarily and cheerfully given during two weeks of untiring practice. It was regretted that Mrs. Perrot was not present to give one of her recitations. Mr. Bennett, the director of Manual Training at Normal School Regina gave an address on this subject, announced, in which he briefly outlined the course and the development it has made in Canada. He was greatly in favor of introducing the system into all the schools, as it, in his experience, trains the faculties and habits of the pupils.

Tuesday forenoon was occupied by an address by Mr. Perrot on the "Responsibility of teachers to (1) pupils, (2) parents, (3) themselves." His address was a candid and "deception" of a teacher to promote the children upon his leaving a school, just to make a good showing to the parents. It was the incoming teacher's duty to grade the classes. The chief aim in all education was the development of character and the preparation for good citizenship.

Mr. Bennett gave an outline of such phases of Manual Training as would be taken up in any ordinary room, with such little expense as the cost of a pound of plastering, a pair of scissors and a knife. No special room needed. This embraced the work in cardboard, clay modelling and wood carving.

The afternoon session was taken up with a talk by Mr. Bennett on Hygiene. He directed attention to such conditions as need of playing, fresh air, lack of ventilation in the school room, but most especially to its lack in sleeping rooms; also to the posture of children in seats while writing and when standing. Passing on to the subject of school room decorations, he said the arrangement of the pictures was the chief factor.

After a few minutes recess the question drawer was taken up, at the close of which the inspecting came to an end in order that those going north might catch the train. The Institute was very interesting and instructive throughout and the teachers present received much reliable information and assistance by conversing.

Aeration and Cooling of milk

By aeration of milk we understand the exposing of milk to the air, or the forcing of air into milk.

Prof. Dean of Ontario Agricultural College, at the conference of dairy experts held at the Department of Agriculture, Ottawa, last fall. The theory of the practice is that the oxygen of the air purifies or improves the milk, and at the same time rases or volatile oils which are in the milk are enabled to pass away.

If the air to which the milk is exposed, or which is forced into the milk be perfectly pure, the result will undoubtedly be an improvement in the flavor and physical quality of milk. The experiments at the College have not shown any advantages from aerating milk. Probably the conditions there, so far as feeding the cows and caring for the milk are concerned, are better than of the average farm. The farmer may be compelled to feed his cows in such away, or the cows themselves may get such feed, that aeration of the milk would be an advantage.

Aeration in Barnyard. In many cases, however, the air is not pure, and often as much harm as good is done. Instructor Pollock has mentioned that fifty per cent. of the cases in Eastern Ontario are left in the barnyard. Aerating milk in the barnyard is one of the worst things a man could possibly do. We have milked our cows in the yard, which is kept a good deal cleaner than the average barnyard. We have kept the aerator outside the fence, milked the cows and have let the milk run down over the aerator. The result was that we got some of the worst milk we could possibly have. Unless the air be pure, it would be better to cool the milk with as little aeration as possible.

Racking Pain in the Joints.

Also every form of rheumatism, neuralgia and sciatica, the best relief by Nerviline, the quickest relief for muscular pain yet discovered. It's because Nerviline strikes in and penetrates right to the core of the pain that it gives such wonderful relief. I caught cold in my shoulders while driving and suffered great pain, writes G. E. Donaghy of Berlin, I used Nerviline freely and was soon quite well. I have found Nerviline an excellent remedy for rheumatism and neuralgia as well as for cold in chest. I recommend Nerviline highly and wouldn't be without it. Price 25c.

Penron Park

Send on your lumber Mullen, the Pipestone is raising.

George Law, overseer in the north end of the Park is doing vast improvements on the roads.

A brand new baby arrived at the home of Frank Fee it appears to be welcome and has come to stay.

Two young men of the land exchanging business of Wetaskiwin promised to take two young ladies of the Park to a Base Ball game. The appointed hour came to start but the young men came not neither did their regrets. Nasty boys.

It's a deplorable condition when a couple of young men and their girls get stuck in the mud hole and have to unload. Such was the case last Sunday in the Park. They got out. Yes, it's a pretty tall place when Con. can't crawl out.

Bob Hutton is doing the grand with the Government grader on the range line. Under the supervision of Councillor Fee, with Bob at the helm, has graded two miles of road. This shows what can be done and is a job worthy of inspection.

Misses Beatrice Boyd and Mavis Fee galloped to town last week and got wet not full. Just wet, didn't the rain come down. The previous wetting was in the river, this time in the saddle. The next they go to town when it looks rainy they will not go.

The Norwegian Ladies Aid Sewing Society will have a sale of all kinds of garments on June 22nd at the home of T. R. Jevne's. Also there will be a Base Ball game between the Rosenroll nine and the Crooked Lake boys. The ground is in good condition and a close contest is expected. There will be all kinds of refreshments for the hungry and dry. Everybody come and have a time for your life.
